

GCL[®] INTERNATIONAL

Worldwide certification,
verification and inspection

**SERVING MORE THAN 50 COUNTRIES ACROSS
5 CONTINENTS SINCE 1995**

ABOUT GCL INTERNATIONAL

Accredited certification body for internationally recognised certification, verification and inspection. A United Kingdom company located in the heart of the capital city of London. GCL International is an accredited certification body for GOTS scope 1, 2, 3, and 4.

HOW DOES IT WORK

You're a formulator of textile chemicals, and you'd like to get GOTS certification for your chemical inputs. Please submit an email to info@gcl-intl.com to get the proposal and application form. Once you've submitted the application, we will send you a quotation and scheme rules for the approval process. Once you've approved the quotation, GCL will ask for technical documents of applied products & will perform technical document review. After the review of your documentation if applied products successfully Passed then we will schedule an on-site audit (Not Applicable for Traders). Based on the result of document review and on-site GCL will make the certification decision and final letter of approval will be issued.

MARKET DEMAND

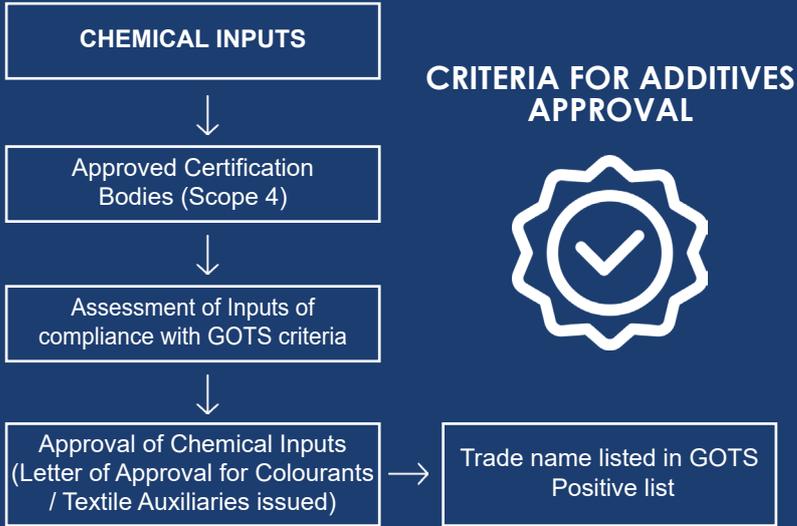

The Global Organic Textile Standard (GOTS) aims to set rules for ensuring the organic status of textiles, from raw material harvesting to environmentally and socially responsible manufacturing to labeling, in order to provide reliable assurance to the end customer. Textile inputs that have received the GOTS certification will be more environmentally friendly and have a lower impact on human health and the environment. As a result, there is a competitive market demand for gots-approved textiles.
